Could Have Been BetterBy Alecsander WolfertSpartan Black Team is portrayed to be caught up in age old feuds, and they lose a forerunner construct with the potential to end the war. I'm sorry but I may have lost all of my fascination with this particular group of Spartans. It was still an interesting story, but they lost more than they gained.0 of 0 people found

the following review helpful. Bad endingBy Kindle CustomerThe book itself is a great book, I enjoyed it, but the ending leaves you on the edge of your seat, but fails to get you back in place. Bad cliffhanger ending.

Blood Line is the top-secret unconventional warfare unit of the United Nations Space Command's Office of Naval Intelligence, engaging in sabotage and assassination missions deep inside Covenant space. But when this quartet of super soldiers is shot down over a desolate moon along with a Covenant cruiser, humans and aliens will have to forge an uneasy alliance against a common foe before an eons-old threat destroys them both!
