Christopher Schlerf : Halo: Escalation Volume 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Halo: Escalation Volume 1:

1 of 1 people found the following review helpful. Great addition to the Halo story! By Garrett I've read every Halo comic, and I have to say I was very impressed! I was fascinated by this new story of the Halo universe that I love so much. This is a great comic because it follows major plot lines, major characters, and well known locations. The artwork, although great in many areas, can be kind of bland in others. The dialogue is very interesting though.

Throughout this story, you get the feel as though it could have been made into a video game. Master Chief makes great appearances, and at this point in the Halo universe, his presence is what is going to sell copies. I'm glad I was able to read this. I will keep this and share my Halo knowledge with my kids someday! I am literally in our delivery room right now. Induction is a long process and reviews pass the time! Don't judge! 0 of 0 people found the following review helpful. An unexpected, but most definitely welcome addition to the Halo Universe! By RJI had been out of the loop from the Halo scene for quite a while, but when I heard that a new comic had been released continuing on the epic story left off by Halo 4, I needed to see it for myself. I came in with no pre-conceived biases, but came out more than pleased. This story continues to capture the same cinematic tone that 343 revived in the Halo saga, and had me pleasantly surprised with its both gripping and subtle complexity. This comic series provided me with a much needed relief on my craving for the journey of Halo to be continued, and I daresay it is required reading for any true Halo fans. 0 of 0 people found the following review helpful. Fun read! By GreenBeanSuper excited to find this copy. It's the only thing my husband wanted!

Following the events of Halo 4, the UNSC Infinity is deployed to security detail for a peace summit between the Elites and Brutes. When the negotiations are ambushed by a mercenary fleet, Infinity is drawn into a plot which leads them to the discovery of a long-lost UNSC asset trapped behind enemy lines. This graphic novel collects the comics Halo: Escalation 1 through 6. Don't miss the thrilling new adventures set in the Halo universe!

About the Author Christopher Schlerf was the Senior Writer for Halo 4 at 343 Industries. He created the original draft of the game's script and continued to write for the game throughout the development process, alongside the rest of the writing team. He was also the writer of Halo: Escalation and the short story Petra. Chris Schlerf left 343 Industries in November 2013.
