Sarah Palmer is the commander of a lot of Spartans, and hence, she is definitely an important character in the halo universe. This story follows her as she is drafted into the Spartan program. This book has a lot of great art, and a great story. No master chief unfortunately, but the story is here nonetheless. This is

guaranteed to be a good read, and will satisfy the thirst of any Halo fan. I enjoyed it thoroughly and will most likely read it again a few times. 0 of 0 people found the following review helpful. Great with two thumbs up By Steven Robinson This has got to be one of the best comic books that I have read in a while. Especially since I hardly read comics now, I give them a 5 stars cuz of how this comic tied up with the games and movies. if there are any more comics like this I will most likely read them and the people I would recommend are people in the halo industry it would be a good way to get kids to read as well and I would say ages 9-16.
