Brian Michael Bendis, Peter David, Fred Van Lente : Halo: Oversized Collection before purchasing it in order to gage whether or not it would be worth my time, and all praised Halo: Oversized Collection:

Love everything about itBy kevin wrenneLove everything about it, I am new to graphic novels so I thought I'd start with fall of reach covenant,I read that then picked up invasion, and then over sized collection.all of the ones I bought were used and in perfect shape. And this next part is for the person who gave it 2 stars both the game and the novel isn't for your 10 year old to read or play, the game is pretty graphic with partial nudity,and the novel has a lot of laungage but says 17 or older on the back so you might want to look up the

product before you buy it. But I love this product and would recommend it for any new or long time halo fan like myself. 26 of 29 people found the following review helpful. Amazing graphic novel for an amazing price; if you are a Halo fan, you should love this. By Jared L Halo: Oversized Collection is basically the graphic novels "Halo: Uprising", "Halo: Helljumper", and "Halo: Bloodline", all comprised into one book. The price is great (\$30 currently through), considering that those novels separate are around the \$15-20 each. So not only is this cheaper than if you tried to purchase them individually, but it is also hardback and has about an extra 30-40 or so pages at the end with added artwork and interviews with the authors. I am not that big of a fan of comics, but I am a Halo fanatic. So after loving the graphic novel "Halo: Fall of Reach" from last year, I couldn't wait for this to get released. I was interested in checking out Bloodline, Helljumper, and Uprising after reading and loving Fall of Reach; and would have just purchased them separately, but when I found out about this all-in-one book, I just decided to wait and get this when it released. Each of the three novels are completely different stories that have to do with different parts of the Human-Covenant War. "Uprising" is a story that bridges the gap between the ending of Halo 2 and the beginning of Halo 3. It details the Master Chief's endeavors while he is stowing away on the Forerunner Dreadnought heading its way towards Earth. Meanwhile, the Covenant start to invade Earth, setting up the battles that we eventually see in the first half of Halo 3. "Helljumper" details a group of Orbital Drop Shock Troopers, also known as helljumpers, as they investigate a distress signal on a colony world known as Ariel. And then "Bloodline" details the story of Spartan Team Black, a top-secret unit of ONI, engaging in sabotage and assassination missions deep inside Covenant space. Each story contains superb art style and was a pleasure to read and look at. Even if you are not that big of a fan of comic books, the story and Halo lore will keep you interested, if you are a fan of Halo in general. Definitely an amazing book for a great price. If you are a Halo fan, you should love this collection of stories. 0 of 0 people found the following review helpful. Bungie at its finest! By Xecnalxes Great for Halo fans who wan't extra but don't want to be required to read the books to understand the game.

The Halo saga begins here! First, the enhanced supersoldier Master Chief takes on the Covenant's miles-long command craft - heading for Earth to activate the world-shattering Halo weapon. It's time to lock, load and save billions of people - or die trying. Then, Helljumpers are the meanest, most battled-hardened Marines in the UNSC. But even the Helljumpers are taken aback when they respond to a remote science colony's SOS call and discover an enormous Covenant military presence! Finally, a UNSC ship encounters a strange phenomenon that sends it plummeting toward an unknown planet. But they're not the only ones shipwrecked there! Be there as the Halo saga unfolds - with all-new stories set in the world of Bungie's blockbuster Halo video game series! COLLECTING: Halo: Uprising 1-4, Blood Line 1-5, Helljumper 1-5
