Maki Enjoji : Happy Marriage?!, Vol. 10 before purchasing it in order to gage whether or not it would be worth my time, and all praised Happy Marriage?!, Vol. 10:

I could identify with the character very well, she never did anything that made me groan or made me feel like she wasn't anything like me. It's set up is a bit contrived, but the reactions of the two main characters, which is the lion's share of the story, is credible and entertaining to read. It's something I would

definitely lend to a friend (if I could - I order it as an ebook). 2 of 3 people found the following review helpful.

Stereotypical and boring
By Johanna Draper Carlson
The mismatched romance manga series by Maki Enjoji concludes with, as expected, a happy ending, finally revealing who was behind the family scheming. There's another showdown, first, throwing in another secret that shakes everything up. I don't mind this kind of soap opera, if done well, since it can highlight universal family feelings through exaggerated machinations, but at this point, I'm tired of the whole thing. I've never found the emotions in this series at all realistic and there's nothing wrong with that, if the series can be entertaining for other reasons, but the stories were never that humorous or exciting or memorable either. So, summing up, at this point, I'm glad it's over. I find it easier to process stories about the importance of blood ties and family obligations if they're given more of an historical cover, since today those tales seem so outdated. Here, it just leads to lots of time-wasting as Chiwa goes back to her father's house and sits around worrying. At least that's consistent with the earlier books in the series. She's never done much. The last chapter is all about how mismatched they are as a couple, but instead of addressing any of the concerns that annoy each other, they decide that that's just their way. They say their vision of marriage is tiring, which I totally agree with, but it's just accepted, a solution I found feeble. Instead, we get more stereotypical romantic myth-making, wedding dress and all, at the end. (The publisher provided a review copy. The only way that it could have been better would be if it showed them finding out she was pregnant.

In order to help her father, Chiwa Takanashi agrees to an arranged marriage with the company president, Hokuto Mamiyaa man she doesn't know at the request of Hokuto's grandfather. Chiwa believes the arrangement isn't binding, but her new partner seems to think otherwise. Can two strangers living together find their way to a happy marriage?!
