I really think it's a fun story, and completely amazing to look at! Check it out, you won't regret it.0 of 0 people found the following review helpful. beautiful storytellingBy CustomerMiller writes a good plot but it's Darrows art that gives this 5 stars. He puts more in just one of his splash pages then the average artist can put in 24 pages. I definitely will check out more of his work after reading this one. If your'e into sci-fi and artistically stunning books then this one is a must read.0 of 0 people found the following review helpful. a classicBy M. ScottI owned this one twenty years ago and I was happy to fine it again.

Carl Seltz is a suburban insurance investigator, a loving husband, and devoted father. Nixon is a berserk, homicidal tax collector racking up mind-boggling body counts in a diseased urban slaughterhouse. Unit Four is the ultimate robot killing machine - and the last hope of the future's enslaved mechanical servants. And they're all the same psychotic entity.

The List 7-21 October 2004, review by Danny Graydon: "...intensely detailed and highly visceral..."; Go! Essex Chronicle: "packed to bursting with intricate illustrations."
