Great readBy William S.I was mostly exposed to He-Man through my older siblings, but even as a kid in the late 80's early 90's, I still loved playing with the figures and watching the re-runs. I never even knew there was a comic strip. So I picked this up to go along with my mini-comic collection and the art collection. Wow, is this thing great! I thoroughly enjoy all these comics. It seemed like it was a painstaking labor of love for the people that put it together, and for that I am truly grateful. Trust me, this is a purchase worth the money.1 of 1 people found the following review helpful. Nice bookBy ShawnNice book0 of 0 people found the following review helpful.
