After reading the great story in volume one I ordered this right awayBy CHUCKAAfter reading the great story in volume one I ordered this right away, It's a collections of one shots telling the origins of main characters from Masters of the Universe. Sounds good on paper until you read the stories

which is just poor writing and poor artwork. It was more work to get through it just to be able to say I read it. You can skip this volume all together and not miss anything in the story.0 of 0 people found the following review helpful. back stories.By shooter mcgavinGood volume to read up on back stories.1 of 1 people found the following review helpful.
