Corinna Sara Bechko : Heathentown before purchasing it in order to gage whether or not it would be worth my time, and all praised Heathentown:

0 of 0 people found the following review helpful. Swampy HorrorBy baby nightsoil"Heathentown" is creepy. The author is a zoologist- maybe DC should hire her to write Animal Man- she is also a good writer. Also it's pretty awesome to see women writing horror comics. Gabriel Hardman's art is reminiscent of classic horror comics. It's black and white, which can make the reading a little difficult (characters look very similar, a lot of darkness), but it's worth

it.I picked it up used at a sweet deal, increasing the value to me, but it's worth the original cover price.0 of 0 people found the following review helpful. Decent art can't save weak storyBy Kevin J. HurtackThis is an incredibly poorly written story. The characters have ZERO depth or development. The whole point of the swamp is never clearly explained. I'm left wondering WTF is all this about? The artwork is pretty good although the artist tends to get a little too heavy with shadows for my tastes.0 of 0 people found the following review helpful. Supernaturally Superb!By Andre R. FrattinoThis story is deliciously dark and morbid! A fantastic supernatural story set in Florida! If you're interested in a good ghost story, this is a definite buy!

When Anna travels deep within the Florida Everglades to attend her closest friend's funeral she finds herself in an eerie, small town where death may not be the end. To discover the truth, she digs up her lover's coffin, starting a chain reaction which brings an ancient malevolence into the town bent on Anna's destruction!

From Publishers WeeklyAn unorthodox horror story, equal parts hidden worlds, lost love and mammoths, Heathentown is that rarest of thingsa genuinely unusual take on the undead. Anna Romano comes to Florida for the funeral of her friend Kit Durrel, a linguist who had worked with her in Africa and died there in a horrific incident of mob violence. The evening after the funeral, she visits Kit's grave only to find another visitor already thereKit herself. This leads to her discovery of a murderously strange culture of the walking dead living in the depths of the Everglades: those that are buried there come back, not so much revived as preserved by something of a ghoulish version of the Fountain of Youth. What follows is a breathless series of escapes and attempted rescues that is also simultaneously an emotional story of sacrifice and lost chances. Bechko and Hardman, who worked together on the Zuda Web comic the Crooked Man, are a perfectly matched team as Hardman's beautiful, highly cinematic art captures the excitement and complex emotions of Bechko's memorable and nuanced story.
