Timothy Zahn : Heir to the Empire (Star Wars) before purchasing it in order to gage whether or not it would be worth my time, and all praised Heir to the Empire (Star Wars):

Not As Good As The Book, Still A Solid Piece Though!By Sean SmithWhile I love the Heir to the Empire novel by Timothy Zahn, I thought this graphic novel suffered from artwork that distracted me from the masterful story that Zahn had crafted. While the artwork isn't bad, it's just not as good as the images I find I created in my head when reading the printed novelizations. If you are more a comic book fan than a novel fan, pick this up and experience one of the greatest Star Wars Expanded Universe stories. If you are an avid

reader, try reading the novel instead. Or at least read the graphic novel first and the novel second. You'll get more out of the story in the actual novel but sometimes visuals at first will help you see the story more vividly.0 of 0 people found the following review helpful. good readBy Kirk JonesIt jumped around a bit, but overall it was a good story.
