Mike Mignola : Hellboy, Vol. 4: The Right Hand of Doom before purchasing it in order to gage whether or not it would be worth my time, and all praised Hellboy, Vol. 4: The Right Hand of Doom:

1 of 1 people found the following review helpful. My favorite Hellboy volumeBy Wilson LanueThese are short stories from early in Hellboy's career, fragments of atmosphere and feeling. They show the quiet struggle of the monster destined for evil who chooses instead the side of the angels, and that's exactly the stuff that makes me a sucker for Hellboy.But the stories never get too complicated: The subtext may be all about Hellboy's inner struggle, but the text

is about how he masks it - by smashing his way through whatever obstacles he can. I think a lot of us feel, as Hellboy does, that we are feeble-minded and inadequate. That the best we can do is to swing blindly and hope blunt force will carry us semi-safely through. 1 of 1 people found the following review helpful. Hellboy rules By Jimmy James Mignola has created more than just another comic character, he's really set a standard for this paranormal genre both from a story line and artistic perspective. I've been a huge Marvel fan since I was a kid (and still am), but Mignola's work has compelled me to look outside of Marvel and DC to discover a host of other amazing work. I own all the Hellboy trades now and will be adding other related work to my collection. As a side note, I'd have to say the animated DVDs are also a lot of fun! 0 of 0 people found the following review helpful. but i pushed through and held out hope because i liked the movies and wanted to like the comic By leibmanman Ill admit, the first 3 volumes didnt grab me very much, but i pushed through and held out hope because i liked the movies and wanted to like the comic. A lot of the volumes have short stories that are basically episodic and don't tie together much in the grand scheme of things, but in this one there were several call backs to previous stories which i enjoy because it makes the grand story seem more planned out than i originally thought. I liked the first 3 volumes, but so far this one is my favorite.

Dark Horse presents new editions of the entire Hellboy line with new covers, beginning with Seed of Destruction, the basis of director Guillermo del Toro's upcoming film. Hellboy is one of the most celebrated comics series in recent years. The ultimate artists' artist and a great storyteller whose work is in turns haunting, hilarious, and spellbinding. Mike Mignola has won numerous awards in the comics industry and beyond. When strangeness threatens to engulf the world, a strange man will come to save it. Sent to investigate a mystery with supernatural overtones, Hellboy discovers the secrets of his own origins, and his link to the Nazi occultists who promised Hitler a final solution in the form of a demonic avatar. "The best horror comic in a generation. This Mignola guy is a wizard" Frank Miller
