Jae Lee : Hellshock: The Definitive Edition (Hellshock Tp) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hellshock: The Definitive Edition (Hellshock Tp):

1 of 1 people found the following review helpful. Some of the best art ever put into the pages of an IMAGE releaseBy Matt StevensJae Lee sure knew how to drive people crazy. He was always late in the 90's (and is frequently late this decade as well) and his HELLSHOCK was notorious for lateness. The first series was decently written and expertly illustrated. The second series was canceled because Lee just couldn't meet a deadline. He was months late.This

Hardcover release sort of wraps up the second mini-series with an epilogue like finish that uses some interesting art and storytelling, but it feels rushed and somewhat tacked on. No doubt that Lee had other intentions at the time. The extras at the end are quite interesting, but the retail price for this release is way out of line for such a short work. Had it been oversized (allowing you to get closer to the art) I would say pay full retail. But it is not, so try and get it at a discount. 1 of 2 people found the following review helpful. i expected something else

By Andres Quintanilla
I waited more than 5 years to read the last chapter of this book, in the mean time i read the previous hellshock, so my expectations were something of angelical proportions and...it went through a inside-psychological -projective story, (remember the disappointment of the final chapters of Evangelion? something like that...not what i expected. But at least it ended, and i could complete the trilogy. 1 of 2 people found the following review helpful. Psychological thriller

By wiredweird
Not just psychological, but psychiatric - almost a reminder of those 1950s-ish comics featuring psychoanalysts. This is a well-drawn comic. The script holds together and moves with the right balance of explanation and mystery. Artwork carries the mood well, by turns claustrophobic, exultant, despairing, and grunge-noir. It has all the makings of a taut, exciting story. The problem is that it just doesn't excite me. I know that others will differ, but the whole drama of mind-to-mind just falls flat when I read it. The "Fallen Pages" supplement at the end interests me more, even if the art isn't quite as polished, and I like the cover art (?) that follows. If that "relationships" thing between doctor and locked-ward patient works for you, then have a blast. It's just not me.-- wiredweird
4+ stars for the art and scripting, 1 for personal level of interest - and this is a personal review before it's anything else.

In the confines of a psychiatric hospital, a suicidal young woman meets an enigmatic stranger who believes he is an angelic presence not of this earth gifted with the powers of God. Is she being seduced into a cult... or is she bearing witness to a miracle? Hellshock: The Definitive Edition reprints issues #1-3 of Hellshock by Jae Lee plus the brand-new 22 page conclusion!
