Kohta Hirano, Duane Johnson, Wilbert Lacuna : Hellsing, Vol. 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Hellsing, Vol. 1:

0 of 0 people found the following review helpful. Great Story and Art.By Kaylyn FredericksA Bit late on the review. ^^;This manga is amazing. I love Hellsing. (The manga and the OVA anime.) The art style is superb. So much detail to characters and surroundings. Good character development. The comic art and the writing is so emotionally driven, kept me very interested and never bored me. I kept re-reading it. I plan on collecting the rest of them soon enough. If you love the macabre or gore style of entertainment, this is the manga for you!My only issue is with the seller/shipping. The book I got must have been from a public library as there were stickers in the book from said

library. The cover has a bend in it and the book feels a bit flimsy in certain areas. It has a lot of wear and tear, which bugs me a bit, seeing as the description from the seller said it was new quality and only had minor wear and tear. I'm not going to lower the five star rating as the rating was for the quality of art and writing of the manga. It's my opinion/review/critique on the manga itself, not the physical copy I purchased. I would recommend this to any fan of Hellsing or anyone interested in a good read. It will not disappoint. 2 of 2 people found the following review helpful.

Vampire and Blood Galore By Aaron SI was first introduced to Hellsing by watching the self-titled anime first. It had a nice feel to it, but was sort of boring. Then after reading online someone said that the Manga was better. I had to pick it up, and let me just say I am EXTREMELY glad I did! The art is wonderful, and the action scenes are highly detailed. Each bullet wound, each hand slice, every single piece of flesh that flies off of disembodied corpses is captured with loving detail you can tell! Since this is the first volume, don't expect pacing that will blow you away or hint at what will happen in the later volumes, this volume mostly covers introductions and back stories. This may seem boring, but it is anything but! Also, the extras in this manga are surprisingly good! Usually in mangas, after the chapters are over, you get a little tid-bit of goodness, such as little character bios or some information, but Hirano added the original hand drawn mini-story that inspired him to create Hellsing. Be sure to check out the page count and product rating, this manga is directed toward a more mature audience, there is quite a bit of profanity and one of the enemies talks about plans of raping. Nothing sexually graphic is depicted, but just a heads up. Compared to most other mangas, such as ones from Yen Press and Viz Media, Hellsing is much longer and contains animated panels that you can visually see have a lot of heart in them. I highly highly recommend this product to anyone who wants to embark on a bloody good time full of vampires and silver bullets! (Oh yea, and try to buy new, since the manga is older the cover isn't as sturdy and the page quality is a little lower) 0 of 0 people found the following review helpful.

Fantastic Gothic Manga! By Rebecca Hellsing is even better than I hoped it would be! I've heard great things about this series, and I decided to try it myself. It didn't disappoint. The storyline is off to a good start, and the art is sublime. I recommend this series to any vampire fan who loves a tough, sarcastic, and badass vampire plus gore, good dialogue, and a love of big guns. If any of what I mentioned sounds good to you, then Hellsing is for you!

There's a secret organization somewhere in England created to defend the Queen and country from monsters of all sorts. Yes, it's hard to believe in this day and age... but really, isn't this the true age of monsters? Enter Hellsing, an agency, long in tooth, with the experience, know-how, and... er... equipment to handle the problems that arise when vampires, ghouls, and the like take on these dark forces. "What equipment?" you may say. How about another vampire, and a big pistol loaded with special silver bullets? That oughta do the trick. But what really knocks 'em dead is the sharp wit, awesome artwork, and crazy, bloody action that make up the manga. Hellsing the long-awaited manga is finally in America, thanks to Dark Horse Comics and the folks at Digital Manga, and you're gonna love it. Come get some smart-ass gore and action as only Japan seems to produce, in that crazy "non-Western" format the kids seem to love. And nice and thick at a full 200 pages! The night is dark, but at least those wacky anti-heroes from Hellsing can make light of it.
