Jason : Hey, Wait... before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hey, Wait...:

This superbly evocative graphic novella by the award-winning Norwegian cartoonist Jason (his first appearance in the English language) starts off as a melancholy childhood memoir and then, with a shocking twist midway through, becomes the summary of lives lived, wasted, and lost. Like Art Spiegelman did with *Maus*, Jason utilizes anthropomorphic stylizations to reach deeper, more general truths, and to create elegantly minimalist panels whose

emotional depth-charge comes as an even greater shock.
