**Douglas Adams : Hitchhiker's Guide to the Galaxy: Quintessential Phase** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hitchhiker's Guide to the Galaxy: Quintessential Phase:

Douglas Adams - genius By Michael Scullin First came the radio shows (and I still have the tapes), then the television series and then the movie - and somewhere in there came the books. The radio show are the best. I did not buy the entire five volume trilogy at one time but I recommend doing that. I now have all five and they remain as fantastic and funny as they were the first time around. This is great material for driving across country because it requires the listener to pay attention for fullest enjoyment. But the great thing is that one can play the entire series over and over and there will always be something new and the entertainment level never wears thin. For another side of Douglas Adams read "Last Chance to See." There is a used copy for a penny right now. 0 of 0 people found the following review helpful. Gift By radGift. I gave 5 Stars because that is what I hope recipient will think. I also did not fill out the 'plot choices', but I glanced through it and I think there is some extra inside info and material. Slightly different actors than the original but a great job nonetheless. This disk set completes the radio series, for now.

Trillian gets tangled up with a party of lost aliens having an identity crisis. And, just when Arthur thinks he has found his true vocation on the backwater planet of Lamuella, the original Trillian turns up with more than a little spanner in the works. A stolen ship, a dramatic stampede, and a new and sinister Guide lead to a race to save the Earth again. But this time, will they succeed? Simon Jones returns as Arthur, Geoffrey McGivern as Ford, Mark Wing-Davey as Zaphod Beeblebrox, Susan Sheridan as Trillian, Sandra Dickinson as Tricia McMillian, and Stephen Moore as Marvin. William Franklyn is the Book, alongside a host of famous guest stars. This extended edition features 30 minutes of material not heard on BBC Radio 4.2 CDs. 2 hrs 30 mins.
