Saul Griffith, Ingrid Dragotta, Nick Dragotta : Howtoons: Tools of Mass Construction before purchasing it in order to gage whether or not it would be worth my time, and all praised Howtoons: Tools of Mass Construction:

3 of 3 people found the following review helpful. This is too repetitive. It covers the same materials ...By Mom with Ph.D.This is too repetitive. It covers the same materials as the previous volume.1 of 1 people found the following review helpful. This is such a great book. We checked it out at the library ...By JayThis is such a great book. We checked it out at the library and now my 8yo has put them all on his Christmas list.0 of 0 people found the following review helpful. Great, smart fun!By PRSI liked the howtoons feature in Make magazine, so when I saw this book I purchased it for my 12 years old daughter. She loves it!It is fun to browse and I am sure it will provide several fun and

intellectually active afternoons.

This is a great addition to STEM collections, maker spaces, and elementary- through middle-school graphic-novel collections. - Booklist "Fine, fabulous stuff" - School Library Journal Lurking in the corners of your garage, on the dusty shelves of hardware stores, and in your own trash can are the tools and ingredients for creating your own adventures. Follow Celine and Tucker as they learn through play with over 50 DIY projects! Challenged to make something "other than trouble," this brother-and-sister pair use everyday objects to invent toys that readers can build. Combining comics and real-life science and engineering principles, Howtoons are designed to encourage kids to become active participants in the world around them. "...perfectly tuned to inspire creativity as well as promote good work habits in budding inventors and mechanical engineers alike." - Kirkus Review "Geeks aren't born, they're made... and here's the instruction manual." - Wired Magazine
