This book for the most part can be said that it's an X-men want to be!! And it's a little true, but here is the truth Waid's amazing character writing and

awesome sense of irony keep this book on it's own and away from being a want to be book!! The art is amazing!! this book is too much fun!4 of 5 people found the following review helpful. Reminding readers of what a Hero is supposed to be.By PhattyHunter-Killer by Waid and Silvestri is an action packed ride reminiscent of every 1990's and early 2000's Comic idea that wasn't pulled off right. The key difference here being they did it right. When any other writer or Hollywood schmuck would have fumbled the ball Waid executed perfect and dynamic interactions with plausible reasons for the characters actions.Ellis Is potentially the most powerful Ultrasapien of all. His parents have raised him in secrecy to keep him from being used as a weapon but when he learns the truth he chooses to side with the people his parents were trying to hide him from because he has nowhere to go. In doing so he achieves great things. His parents fear that he would be used as a killing machine are pushed aside by the purity of his ideals. Yes there is a lot of bloodshed in this title, but its never gratuitous, and whenever possible Ellis and Argent try to save lives...something not enough "Heroes" in the Comics, Hollywood, or the real world seem to value any more.If you want a great Book about what Super Heroes should be this is the one for you.15 of 16 people found the following review helpful. One Excellent Comic BookBy Joseph CisnerosHunter-Killer volume 1, is amazing. This is one of the best Top Cow comics! Mark Waid (writer) is an excellent story teller, while Marc Silvestri (artist) draws with energy and detail. The last chapters are drawn by Basaldua and Rocafort, who both do an amazing job as well. Yes it does get violent and gory, but that is what comics are for. If you enjoy comics like Cyber Force or X-men, this is a great pick.

What if the nuclear arms race was just a cover for a far more insidious detente? How would the world's government deal with the true fallout of the Cold War? From the minds of comic legends Mark Waid (Kingdom Come, The Flash) and Marc Silvestri (X-Men, Wolverine, The Darkness) comes this science-fiction/action-thriller that has mesmerized fans worldwide.
