**Joshua Dysart : Imperium Volume 4: Stormbreak** before purchasing it in order to gage whether or not it would be worth my time, and all praised Imperium Volume 4: Stormbreak:

2 of 2 people found the following review helpful. Back on board!By Drown HollumVolume four of Imperium is a MAJOR turnaround for a series I was just losing faith in. Dysart gets back to the matters at hand, carefully weaving a large-scale political conflict with powerful character moments, like he does best. Khari Evans comes back for the ride

too, bringing his gorgeous characters with him. I love seeing the two work together, and wish they had been the regular creative team for this title. This volume focuses on the relationship between Harada and Livewire, something easily worth dedicating an entire trade too. We also get some healthy exposition on Gravedog, who has become a new favorite of mine as well. The pacing is great, the story has some bizarre and unnerving moments, and every psiot and monster worth looking at gets a moment to shine. The only failings here are some wild visual decisions made by the art team. A lot of the back half of the book features only Evans' figures over what are mostly photoshopped military stock photos. Weird right? Anyway, Imperium wins me back just in time to end its monthly run. I'm expecting a finale in the form of a new mini, because things don't exactly resolve here. Hopefully Dysart sticks the landing, there's a lot riding on it, in terms of the Valiant U's quality overall. 0 of 0 people found the following review helpful. Return to Form! By Lloyd Alexander Return to form for Dysart! A great story that is not quite a finale. While some issues are resolved, the ending of this volume certainly does not feel like an ending to the series. Excellent storytelling by both the writer and the artist. This volume displays why some consider Valiant to be the leader in the genre.

The world's most powerful team of mercenaries is on the defense as an elite international kill squad led by Livewire and H.A.R.D. Corps Major Charlie Palmer descends to destroy Imperium's stronghold! Toyo Harada will save the world if he doesn't doom it first. The revolutionary disruption that Harada and his team have launched by deposing tyrants, housing refugees, and feeding the poor has come at the expense of the world's wealthiest nations. When the planet's leaders have had enough, it will be decided: Toyo Harada must die. Now a crack unit of operatives will stand against Harada on the global stage with his own former pupil, Livewire, taking him head-on. The war starts here as New York Times best-selling writer Joshua Dysart (HARBINGER WARS) and Harvey Award nominated artist Khari Evans (HARBINGER, The Immortal Iron Fist) unite for an explosive new chapter pitting the Valiant Universe's notorious team of monsters and revolutionaries against the very system they've sworn to overthrow! Collecting IMPERIUM #1316.
