The story is so-so as is the art. but the writing is good, and it sets up a great series.0 of 0 people found the following review helpful. WowBy Chris MaidaLoved the 1st volume so much, I purchased all 23 available volumes. Great writing, love the characters. Highly recommended. RecommendedBy Kyle LyonInvincible is about a boy who's father is a super hero and he inherits a similar set of powers from his father. It's also from Robert Kirkman of The Walking Dead fame. It's rating is a T+ and I think it's great for anyone who like superhero comics, but wants something other than Marvel or DC. This is a great place to start if you want to get into Invincible at a lower cost. If you're anything like me though your going to want to pick up the Invincible Ultimate Collect which includes more than this.

Back in print! Mark Grayson is just like most everyone else his age. The only major difference being that his dad is the most powerful superhero on the planet! And, Mark seems to be inheriting his father's powers! See Mark thwart super-villains, alien invasions and all sorts of craziness, as he gets the hang of all this super-heroing stuff.
