Robert Kirkman : Invincible, Book 11: Happy Days before purchasing it in order to gage whether or not it would be worth my time, and all praised Invincible, Book 11: Happy Days:

0 of 0 people found the following review helpful. The first completely skippable volume of InvincibleBy Andrew R. OermanI love Invincible. It's a comic that hearkens back to the (almost) anything goes wonder of Silver-Age Spidey without ever copying any character or team or storyline. It's well-plotted, well-written, original and has characters you care about. But this volume is just marking time. There are some good character moments with Eve and with Kid

Omni-Man, but nothing we haven't really seen before. A lot of the volume is taken up with a cross-over featuring another of Kirkman's creations, The Astounding Wolf-Man. That digression is fine for what it is, but none of the individual issues featured in this trade paperback advance the larger plot one iota. (Well, maybe ONE iota.) The crossover smacks of a cash-grab akin to the big two, where they have foil-covered multi-part epics featuring everybody and their dogs ... and absolutely no change to the status quo. I'm not saying don't get this book, especially if you've gotten every other ... but just be aware, it's a comparatively hollow experience held against previous volumes. 1 of 1 people found the following review helpful. Another great round for Invincible. My only gripe is these trades are slow to get collected. As usual, this is a lot of fun with Mark's dad finally escaping the aliens, Mark and Eve's relationship advancing, and more Kid Omni-man. Plus the alternate universe Invincibles looked incredibly cool. I also like Eve's scheme to monetize Mark's powers. It's ridiculous that more superheroes in the comic book world aren't doing something similar. 0 of 0 people found the following review helpful. Invincible is a solid story by an amazing Author. By Dan Jeffrey. Compelling story of a boy who finds out he's an alien and has super powers trying to do right in a world full of wrong. Each of the characters has a solid story and I love any book where anyone is disposable.

Invincible and Atom Eve are dating at last but Mark has just recently moved back in with his mom and half brother. To make matters worse, Mark finds himself staring down the deadliest bunch of villains he's faced thus far including The Astounding Wolf-Man! Collects Invincible #54-59 and The Astounding Wolf-Man #11.
