Robert Kirkman : Invincible: The Ultimate Collection, Vol. 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Invincible: The Ultimate Collection, Vol. 1:

0 of 0 people found the following review helpful. A nice, easily-accessible storyBy JDI had heard a lot of good things about Invincible and finally decided to give it a try. The story starts off a little slow, but picks up rather quickly after a few, great twists/reveals. Kirkman's writing is great - he seems to be having a lot of fun with this book. The references to other, more established characters are great.The art starts off a little off - and you'll understand why this is once you

read Kirkman's notes at the end of the book, but it gets much better as the series progresses. There are a lot of subplots in the story, but it seems to be building up to something great. I already finished volume 2 - and things are even better there. I like that the stories are self-contained - it's not something you can do with most stories within the DC or Marvel Universe. Overall, this book does live up to the hype. Hope you enjoy it! 0 of 0 people found the following review helpful. Everything you want! By CarlaTheStrange Honestly, i can't recommend this comic book enough! The storyline is perfect...it has a beginning a middle and an end! It has maaaaany surprises and some amazing characters that you will definitely find someone to your liking! It is a superhero comic book but it doesn't focus solely on the action...it focuses mostly on the psychology of these characters and their everyday lives as heroes. These ppl have it rough just like us! For me, this book is like comic superheroes meet the YA genre. It's fantastic!!! 0 of 0 people found the following review helpful. Kirkman's finest By Customer Robert kirkman is always recognized for his comic book the walking dead with it spawning a TV show and a spinoff show which are both great I myself never miss an episode but invincible is his best work in my opinion. The series mixes great superheroics by a great assortment of characters with fantastic art (other than the first story arc and even that art is decent) that only gets better as the series progresses. Another great thing about the series is that since this is kirkman's property he allows its characters to grow and change dramatically which gets you more invested by making you feel as if you are growing with these characters from invincibles first day as a superhero as a teenager to him getting married and having a child. In conclusion this volume is a great way to get the first few story arcs under your belt for a nice low price as well as them having a wonderful shelf look when you collect and read all 10 of them.

Get in on the ground floor! This massive hardcover collects the first 13 issues of Robert Kirkman's Eisner-Nominated super-hero, along with all the extras from the first three trade paperback volumes and even more on top of that! Invincible: The Ultimate Collection, Volume 1 is a can't-miss for anyone who's wanted to start reading Invincible, but needed an easier way to start from the beginning.
