Robert Kirkman : Invincible: The Ultimate Collection Volume 5 (Invincible Ultimate Collection) before purchasing it in order to gage whether or not it would be worth my time, and all praised *Invincible: The Ultimate Collection Volume 5 (Invincible Ultimate Collection)*:

0 of 0 people found the following review helpful. best ever, until 6By Aaron ReynoldsI don't know how this is even

possible but every volume in this series gets better. It's like I wouldn't even recognize the first one anymore because that is trash. Not because it is actual trash but because they keep improving that much. I read 3-4 books and 2-3 comics at a time, have read anything of any worth in the last 20 years, and I can safely say this comic is top five in those years. For fans of The Walking Dead, Kirkman's much more popular series, well this is absolutely nothing like that, and it's only for the better. 2 of 2 people found the following review helpful. setting up for future greatness By Frank L. Greenagel II This is another very good collection in this series, but it probably isn't as good as the earlier editions. The Doc Seismic storyline is weak and really serves as a way to introduce other characters from other books -- it's too forced. There is a Wolf-man story that is wedged in, and that doesn't fit well either (although it flows much better than the Doc Seismic arc). There is an interesting story where Invincible goes into the future to confront a former ally. The best part of this trade is the same as the best part of the 4th collection, which is the ongoing story of Omni-Man's imprisonment by the Viltrumites and the training of Mark's younger brother. The readers are faced with an ethical dilemma, as Mark's younger brother kills a pair of villains and is not remorseful about it. All of this is setting up future storylines and major events, and Kirkman's writing is at its best when covering Mark's family. 2 of 2 people found the following review helpful. Charming characters, superheroes, true love, what's not to like? By Kid Kyoto Invincible is one of the best new superhero books of the last 10 years. It grew from being a take-off on Superman to a well-developed book with memorable and very likable characters. In this volume we get 12 issues of story and 50 pages of sketches and scripts. This volume is fairly calm, it fills us in on the supporting cast, catches up on some old plot lines and introduces new threats. It also has a crossover with Kirkman's Astonishing Wolf-Man book. The pages are nicely over-sized and the printing is top quality. These Ultimate Collections are definitely the cadillac of reprints.

Witness Invincible's transition from new hero just starting out to an established superhero! This volume collects Invincible's confrontation with Cecil Steadman, the return of the Reanimen, and the beginning of a bold, new era for Invincible!
