Mark does good, Mark screws up, Mark makes amends. This volume is worth reading, but breaks no new ground.6 of 7 people found the following review helpful. if this series was a girl, I'd totally marry itBy Big JohnsonI still can't believe Invincible isn't as popular as it deserves to be, it truly

baffles me. Some crazy stuff goes down in this volume, i won't go into details to avoid spoilers, but wow!! I can't wait for the next volume. But major kudos to Robert Kirkman for crafting a great story and to the art team, especially Ryan Ottley - that man has immense talent. My favorite part about this comic book (besides everything) is that there are so many interweaving plot threads and so many characters, yet everything is fully developed; its amazing. If you love this series as much as I do, tell people about its greatness - get the word out!! And those of you who haven't begun to read Invincible, DO IT! its unlike any superhero comic book out there, its the best in the business. 0 of 0 people found the following review helpful. A groundwork of duplicity is being laid By DeathSpiral A pretty god trade collection. The chess game continues on a number of fronts. A groundwork of duplicity is being laid here.

Angstrom Levy returns to take revenge on Invincible and all those he holds dear!
