I have been waiting for this part of the Iron Man storyline to be released in trade form for years. It's here, finally, and it didn't disappoint. I don't know the technical

jargon from the printing world, but the printing seems to be a faithful 4-color re-creation of the original works. It's not done on the nice glossy pages that modern comic trades of today have, but a kind of matted printing on a thicker weight of paper. The collection is absolutely beautiful and will look great on the bookshelf when combined with future volumes, or even just by itself. The series is not being produced in chronological order. Perhaps they're starting with the most requested storylines first? This is volume 10 in the projected Iron Man Epic Collection line. The omnibus volumes are ridiculously overpriced. This is a great, affordable alternative. You get almost half the content of an omnibus for a third of the price (when purchased at). 0 of 0 people found the following review helpful. Nice to get the colour added to the old Essential ...By Mal Hewison Just started getting the Epic Collections (at last) and can't say that I regret the decision. Nice to get the colour added to the old Essential line. And nice to revisit old storylines. 2 of 2 people found the following review helpful. Great story! By Brian Singer I remember how great the Marvel stories of the 80's were. It was a huge shock when someone else was put into the Iron Man armor and Tony Stark reverted to alcoholism. I just wish they kept going with the stories to show what happened to Tony Stark while he was on the streets and how he beat the bottle. It is a good saga.

Things are looking grim for Tony Stark. A string of battles with Diablo, the Serpent Squad and AIM have worn him out. And when rival industrialist Obadiah Stane targets Stark International for a very hostile takeover, the urge to crawl back into the bottle becomes overwhelming. With Tony in no condition to defend his company, his most loyal friend must step up to bat. That's right: Jim Rhodes takes over as Iron Man! But Rhodey had better figure out how to use Tony's armor fast, because Stane, Magma, Thunderball, Firebrand and more aren't going to give him time to learn the ropes!
