When growing up, I remember reading the initial Spiderman and Fantastic Four stories in black and white shrunk-down paperbacks. I'd never read the Iron Man Collection, so when Marvel had a sale I picked it up. I had no idea that Iron Man was launched under Tales of Suspense, rather than having its own titles, and frequently shared a comic with Captain America. Both stories are pretty jingoistic America vs Russia or America vs the Nazi settings, so there is some commonality. Reading these as an adult, you can see how simple the stories were. They were also very much full of self-promotion, but that probably didn't matter for the audience. What made them stand apart was the consistent melodrama of the characters and their humanity compared to the DC heroes of the same era. It was kind of fun, and but you can only take so much of Stan Lee's writing at once, so I found myself having to read it in fits and spurts.

Excellent reprint volume, the first in the Epic Collection for the Golden Avenger. This reprints the first thirty or so adventures of Iron Man from the pages of Tales of Suspense, featuring artwork by Don Heck, Jack Kirby, and Steve Ditko - Marvel's Artistic Triumverate of the Early Sixties. The stories also introduce such villains as Blizzard (Jack Frost), the Unicorn, Crimson Dynamo, Titanium Man, Mr. Doll, and of course the Mandarin.

In 1963, Marvel had hit after hit, bringing new characters and fresh concepts to a public primed and ready for heroes with feet of clay. And none touched both that heroic ideal and human reality like Iron Man! A jet-setter, playboy and brilliant scientist, Tony Stark's life changed forever when a battle field explosion ripped into his heart...and only the amazing Iron Man armor could keep him alive! Stan Lee and Don Heck built the foundation that would turn Iron Man into a cultural icon. COLLECTING: TALES OF SUSPENSE (1959) 39-72 (IRON MAN EPIC COLLECTION VOL. 1)
