I am Ironman-tony stark, ironman 1By XRaiderV1plans for the arc reactor? check, ticket to stark expo? check. visiter security badge to stark industries? check! full color beautiful fold out page spreads? yep got those too. wonderfully written by the author from jarvis' perspective, includes brief dossiers on notable enemies, and allies(such as loki and black widow for examples) and did I mention the fold out pages? well done.please note this only covers ironman 1-3 and avengers 1 and does NOT cover avengers age of ultron which was released after this book's publication.recommendation? yes please, definitely for the ironman fan looking for hidden nuggets and or things missed.if you're looking for behind the scenes and production notes? then this book is not for you and you should avail yourself of the other titles out there that do cover such things.another notable find by the author would be this http://www..com/Essential-Guide-Droids-Star-Wars/dp/0345477596/ref=asap_bc?ie=UTF80 of 0 people found the following review helpful. Iron Man Manual a must haveBy A. retallickVery happy I purchased this manual. I had NO idea of the all the material that was in it. So many various special purpose Iron Man armors you get

to see, that were not in the movies. (or barely noticed) Very nicely presented. Feels like a book Tony Stark would have in his office lying around, with personal notes, photos, etc...Die hard Fans really should consider buying this.0 of 0 people found the following review helpful.
