**Eoin Colfer : Iron Man: The Gauntlet** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Iron Man: The Gauntlet:

1 of 1 people found the following review helpful. Great ReadBy MXER 7I really enjoyed the style of writing. I thought the author did well with the mindset of Tony Stark and had a fitting type of humor. I was amused and entertained the whole time.0 of 1 people found the following review helpful. I love Eion's styleBy David BaughmanI love Eion's style, and grew up on Marvel, so this was the perfect match. Don't expect the high fantasy style of Brooks or Jordan. This is simple fun.0 of 1 people found the following review helpful. A Tony Stark AdventureBy Jay

PayneGreat Tony Stark adventure. Well written and and solid story.

Tony Stark is known throughout the world as many things: billionaire, inventor, Avenger. But mainly for being the Invincible Iron Man. Just when Tony is about to add his pizzazz to an international eco-summit in Ireland, someone close to him forces him to question his role in making the world a more dangerous place with his high-tech weaponry. But Stark doesn't have much time to reflect before an old enemy presents him with an even greater challenge: the assassination of all the eco-ministers, and Iron Man himself. Just how invincible Iron Man is when he is stripped of everything remains to be seen in this breathless adventure by the best-selling author of *Artemis Fowl*.

From School Library JournalGr 4-6Readers familiar with the Marvel Universe know all about Tony Stark and his campaign to redeem the destructive legacy of Stark Industries, more often than not with the use of the Iron Man suit. While under his father's leadership, Stark Industries designed the most creative and destructive weapons in the world, and his dad was rather cynical about the use of technology. In this novel, written by the author of the "*Artemis Fowl*" books, these themes are never far from the forefront. Saoirse Tory, a young computer genius, tricks Tony, hoping to force him to save her sister, who she believes is being held captive. Unfortunately, one of Iron Man's many nemeses, the Mandarin, is waiting in the wings. Middle school readers, especially those who are fans of the superhero genre, will enjoy the action and changes of fortune as Tony fights to thwart the Mandarin's plans. The characters are well-developed; even the bad guys have interesting personalities. In the end, readers see how Tony has turned his father's cynicism on its head with a more hopeful application of Stark technology. VERDICT A solid addition to larger collections where Marvel fans abound. Matthew Forster, Big Words, Clarkston, MI About the Author Eoin Colfer is the internationally best-selling author of the *Artemis Fowl* series, which is in development as a film with the Walt Disney Studio, with Kenneth Branagh attached as director. His other novels include the *WARP* trilogy, *Airman*, *Half Moon Investigations*, *The Supernaturalist*, Eoin Colfer's *Legend of...* books, *The Wish List*, *Benny and Omar*; and *Benny and Babe*. He lives in Ireland with his wife and two sons.
