Unfortunately, most of the original work was lost in a fire long ago. What we have left is very little. I suppose that's why this book, though nicely designed, consists mostly of frames from the show and the original script. The script takes up almost half of the book! That's disappointing but not all that surprising.Do yourself a favor and buy the original show on Blu ray instead. You'll get a nice making of featurette and an amazingly clean copy of the show, and for less than the price of this book.0 of 0 people found the following review helpful.
