Warren Ellis : James Bond Volume 1: VARGR (James Bond 007) before purchasing it in order to gage whether or not it would be worth my time, and all praised James Bond Volume 1: VARGR (James Bond 007):

0 of 0 people found the following review helpful. A really good Bond StoryBy Alfonso CastroIt's a really good bond story, has a lot of the known elements from the film and movies that make you feel like you are arectually reading arectually bond story, as well as, some familiar faces from the MI6 that make the overall cast more interesting. The lack of a Bond girl is disturbing tho. Don't expect this to be a life changing experience for Bond likr Skyfall was, but

it's definitely thrilling and sophisticated.0 of 0 people found the following review helpful. Attention to all James Bond Fans - - Give these collections a try!By CoachDThese graphic collections are well worth the money. Excellent art and story. Attention to all Bond fans, do not pass up these collections. I collect the comics and still went out and bought the collection, just to add to my bookshelf and re-read.2 of 3 people found the following review helpful. Good Comics of BondBy Michael FrickerI got into reading comics through Batman and its only in the last few years that I have been into it. This year in particular I've been getting into other characters and titles.All through, however I've preferred to read a collected trade of a storyline instead of individual issues. When I heard that Dynamite was publishing comics about my other favorite hero James Bond I figured it would be another great way to read more comics and get my James Bond fix.I went for the collected edition and will continue to do so in the next storylines some of which I already preordered. It takes longer to get your story but I like owning it all and being able to go back to it.Story wise I love that the mission is self contained and not so hell bent on world domination. I enjoy seeing the in England at Mi6 James Bond with Tanner, M, Moneypenny and also the ruthless agent at times outside the office. I think his arrogance, and cruelty balances with his compassion and love of country. The design for Bond in this made me seek out the original newspaper strips from the 50s and 60s and I've enjoyed those too. I loved the way that Q is designed looking a bit like the real Boothroyd who helped Fleming.I will admit that at first I found the backgrounds lacking in the first issue. There wasn't enough wood paneling and leather bounds in M's office for me!Still a good opening and I can't wait yo read others from Dynamite including Felix Leiter and the adaptation on Casino Royale.

After a mission of vengeance in Helsinki, James Bond returns to London and assumes the workload of a fallen 00 Section agent. His new mission takes him to Berlin, presumably to break up an agile drug-trafficking operation. But Bond has no idea of the forces ranged in secret against him, the full range of an operation that's much scarier and more lethal than he could possibly imagine. Berlin is about to catch fire... and James Bond is trapped inside. Dynamite Entertainment proudly presents VARGR, the debut storyline in the all-new James Bond comic book series, as crafted by masterful writer Warren Ellis (Transmetropolitan, The Authority) and artist Jason Masters (Batman Incorporated, Guardians of the Galaxy).

"Holy shit, this James Bond comic by @warrenellis and Jason Masters is the best contemporary take on 007. Brian K. Vaughan @HeyBKV
