Kelly Thompson : Jem and the Holograms, Vol. 3: Dark Jem before purchasing it in order to gage whether or not it would be worth my time, and all praised Jem and the Holograms, Vol. 3: Dark Jem:

0 of 0 people found the following review helpful. Great story, love the art!By morehumanthanhumanJem and her friends go dark as they are targeted by a mysterious and evil cyber-presence. These stories shine when they focus on the strong relationships between the women and having a dramatic enemy to face in these stories really helps the dynamic. Sophie Campbell's art -- as usual -- is a joy.4 of 4 people found the following review helpful. A darker turn

for the hologramsBy Amanda wernerI loved the change in tone in this volume from the previous two. Without giving away anything, it explores the potential dark side of a super computer that's capable of casting illusions. A must for any Jem collection!1 of 1 people found the following review helpful. I LOVED the first two volumes of this comicBy Catherine JadeI LOVED the first two volumes of this comic. I have been very impressed pleased with the comic of one of my favorite cartoons. I was a little disappointed in this volume. I do not want to ruin anything for those who have not read it, but I think it would have been better if the comic deviled into how the virus of the holographic computer came about. I also thought the solution came about a little to quick, even though it keeps you kind of up in the air of the future for Jem. I still really enjoyed this volume, but not as much as I did with the first two volumes. I will continue to read these comic's, because they are so beautifully done looking foreword to volume 4.

Something is wrong with SYNERGY! As JEM AND THE HOLOGRAMS' first tour begins, somethingor someonecalled SILICA is after them but who, or what, is she? Meanwhile, THE MISFITS need to replace their lead singer fastand maybe even permanently?!? Collects issues #1116.
