Jim Butcher, Mark Powers : Jim Butcher's The Dresden Files: Fool Moon Volume 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Jim Butcher's The Dresden Files: Fool Moon Volume 2:

0 of 0 people found the following review helpful. Good book By Deborah Captured the sense of the novel but could have used a little more fleshing out of the characters. The illustrations were a mix of good and not-so-good, especially the faces, but none were too painful to look at. Overall, I enjoyed it and am glad to add it to my collection. Purchased a

new copy with the intent of maintaining it as a collectible but, like the last one (Wild Card), was packaged poorly and the damage makes it just a good read. Think I'll be buying used copies through and stick to dealing directly with booksellers for the collectibles. 1 of 1 people found the following review helpful. Would like the graphic novels to be a little more graphic

By Little Nemo I just finished reading the whole Dresden Files novel series and decided to try these out. Overall the GNs were fun and often followed a novel fairly closely, but not in-depth. I would rather a graphic novel be a bit more graphic in the story telling. A few too many times the GN resorted to capturing a static moment in time from the story rather than telling me the graphic story (hence the 4 instead of five stars). Overall, recommended for anyone who enjoys a good graphic story. 0 of 0 people found the following review helpful. Good could be better

By Carrie McKee As with any Butcher story, Fool Moon is full of dark humor and plenty of action. A superb story. The illustrations, however, leave something to be desired. Too many sharp angles, too many shadows and too much imbalance for my taste. However, seeing as I'm still a huge Dresden fan, and since they stayed true to the story, I give it a 4 out of 5

The star of Jim Butcher's New York Times bestselling novel series, The Dresden Files, Harry Dresden is a private investigator whose clients require a detective with supernatural expertise in other words, he's a wizard for hire. The Windy City has been hit with an outbreak of savage werewolf attacks a case made even more chaotic and challenging by the fact that Harry's uncovered no less than three lycanthropic groups, each seemingly in conflict with one another. On top of that, Harry's lost the faith of his one friend and ally among the Chicago Police Department, Karrin Murphy. Now she, along with werewolves and hostile FBI Agents, hunts Harry while he races against the rise of the next full moon to discover who or what is behind the string of murders!
