SeriesBy DavyoHonestly, I approached this with some hesitation. I was disgusted by the TV series, and was skeptical that the is series would be more of the same. I was more than pleasantly surprised to find all of the little touches, beat up be, cat named Mister, actual power staff, much compression of the plot and story lines but that's to be expected with the format. I had wondered what Butcher had been doing since the book series has stalled over the last couple year's, now I know. Good job, now find some one who can redo the butchered(pun intended) TV series, maybe one or the excellent anime production companies, sigh.1 of 1 people found the following review helpful. Great art work! Love this series.By FletcherWOW! Love the artwork in this graphic novel!Love the Dresden files books, decided to give this graphic novel a try. I was very impressed with the art work in this novel. This novel contains the first several books int eh Dresden files series, and also contains a couple of short stories that are not included int he series.0 of 0 people found the following review helpful. Kindle Version .... Great But Issues Reading Vertical Pages through Kindle software on an Apple 27" iMAC screenBy CustomerFirst, I am a big fan of Jim Butcher's work. (e.g. We just went to Dragon Con 2016 to listen to him on panels).So I may be biased in my comments....PROGreat artwork and good story that feels right inlined with Jim's Dresden World. My guess if you like Jim's work you will love the stories.CONTEchnical Issue. Using Kindle on a Apple 27" iMAC to view / read the series has found so far concern with readability.For pages set Horizontal vs Vertical (e.g. Locations 70 and 133) the story print text is too small to read full screen on a 27" iMAC monitor ... The print is clean so a magnifying glass can let you read it but not for me with 20/20 ....SUMMARYI love it .. outside the reading issue ....

When criminal investigations take a weird turn, the officers of the Chicago Police Department call in Harry Dresden! A wizard and private investigator with formidable yet unrefined skills, the young Dresden is more than capable of tracking down and facing the perps, whether they be black magic practitioners, blood-hungry werewolves, or worse! This first volume of The Dresden Files Omnibus collects the complete comic book adaptations of "Storm Front" and "Fool Moon," plus over one-hundred pages of additional story content set within official continuity of Jim Butcher's beloved magic noir universe.
