**Jeff Lemire : Justice League United Vol. 2: The Infinitus Saga (The New 52)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Justice League United Vol. 2: The Infinitus Saga (The New 52):

0 of 0 people found the following review helpful. Why include the Legion of Super Heroes if you don't care about them?By Kid KyotoThe last Legion of Super Heroes series had an unfulfilling ending with several major characters dead, half the team still stranded in the 21st century and one character's 'original sin' to blame. I reluctantly picked up this story hoping it would fill in some of the gaps. It doesn't. It doesn't even make much sense and no one really acts in

character. The book starts with an alternate history for the Justice League United which had nothing to do with the rest of the story and is quickly forgotten. When the actual story starts we see the Legion's future at risk from a new bad guy so they cleverly launch a plan to go back in time a thousand years and murder the guy as an infant. Which is of course completely in character for them. Super Heroes love time travel infanticide. Stuff happens and over the course of it dead Legionnaires just show up, making me wonder if anyone actually read the book before writing, drawing or editing this one. The Legion Lost team, stranded in the present and believed dead just show up and other than a hug in the background never get a real reunion with their teammates. All of this would be fine if it wasn't the last appearance of the LSH and just makes me wonder why author Jeff Lemire included them since he obviously didn't care about the characters or their story. So I recommend giving this a pass. 1 of 2 people found the following review helpful. Oh well... By Kenozoic I bought this primarily for the appearance of the Legion of Super-Heroes. While there were a few good character moments (ironically, with the members of the JLU), the appearance of the team from the future was hardly necessary, and story itself was a huge waste of time. Save your money. 1 of 2 people found the following review helpful. I have no idea what I'm talking about. By Mark I'll admit the only reason I even picked up this series was for Animal Man, but I've grown to love each of the characters and the dynamic they have as a team. Justice Leagues were good and plenty after the Trinity War but that came to an end pretty quick, so getting the chance to see another Justice League, a league with a new dynamic, new characters, and a whole new story is pretty sweet.

**THE JUSTICE LEAGUE UNITED VS. THE LEGION OF SUPER-HEROES!** Martian Manhunter, Green Arrow, Supergirl, Animal Man, Stargirl, Equinox, and Alanna and Alan Strangetogether they are the newly formed super-team, the Justice League United. During the mission that brought them together, the JLU saved a young alien named Ultra. Created by a mad scientist named Byth, Ultra is a combination of many different alien genes, and thus, a being of incalculable power. While he's currently just a small boy, Ultra is possibly the most dangerous creature alive. And now, the Legion of Super-Heroes team of super-powered champions from the 31st century have traveled back to our time to ensure that Ultra never reaches his catastrophic potential even if it means killing him! It's a tale of time travel, teamwork and travesty as writer Jeff Lemire (GREEN ARROW, ANIMAL MAN) and artist Neil Edwards (FOREVER EVIL: A.R.G.U.S.) bring together two teams of heroes from across centuries in **JUSTICE LEAGUE UNITED VOLUME 2: THE INFINITUS SAGA**. Collects **JUSTICE LEAGUE UNITED #7-10**, **JUSTICE LEAGUE UNITED ANNUAL #1**, **JUSTICE LEAGUE UNITED: FUTURES END #1** and **JUSTICE LEAGUE: FUTURES END #1**.

Fresh and completely different than the rest of the Justice League books on shelves right now. Newsarama Great fun. Highly recommended. IGN Lemire works hard to ground the space opera in intimate team dynamics, even as he plumbs the range of DC history to reinvent concepts. This team features more cool, competent heroines than just about any other superhero-team title around. **BOOKLIST** About the Author New York Times best-selling author Jeff Lemire is the writer and artist behind the acclaimed graphic novels **SWEET TOOTH**, **Essex County**, **The Underwater Welder** and the popular sci-fi love story, **TRILLIUM**. He has also written the monthly adventures of **ANIMAL MAN**, **GREEN ARROW**, **SUPERBOY**, **JUSTICE LEAGUE DARK**, **FRANKENSTEIN: AGENT OF S.H.A.D.E.** and **THE ATOM**.
