have to say that for a comic book based off of a TV show, it does an amazing (no pun intended) job at keeping me entertained. I have no idea why, but my favorite part about this comic is the illustrations. Everything is drawn in a different way, much like how the show uses 2d, 3d, and stop motion animation. The only things I didn't like about this was how some of the characters didn't act the way they would in the show, the ending is a bit cliché, and how Gumball's head is smaller than it is in the show (I really don't know why the size of his head bugs me). 0 of 0 people found the following review helpful. My 3rd grader enjoyed it. By A. James. My daughter is in the 3rd grade and had seen this book at a book fair and wanted it. When it arrived she was super excited and read it very quickly. Per my daughter the book was awesome. 0 of 0 people found the following review helpful. Five Stars. By Mary R. Hapeman. grandchild was very pleased.
