I can't wait to read the rest.1 of 1 people found the following review helpful. an excellent series that keeps getting better!By tshohioI am new to manga, but have enjoyed this series.the style is drawing fits the storyline and the characters, while mystical, have depth beyond what I expected. I look forward to this story going forward and applaud the author for an interesting and entertaining read.0 of 0 people found the following review helpful. This story could take a while.By Daniel M JonesThe pace is slow and thoughtful and I am enjoying his rich

and ranging take on western mythology. It is basically a quest story with a damaged and resourceful heroine at the center. The side stories and characters add to the depth. However, Kore Yamasaki's art would benefit from a larger format. Plus, I would be able to read the tiniest print without hunting up a bright light and/or magnifying glass.

Reads from right to left in the traditional Japanese format.
