A Beautiful CollectionBy Kyle WiersbeI loved Dishonored 2 and after spending countless hours (ok the game does actually count them and it was 36 for my first play through) exploring the world I was completely in love with the art style. This collection showcases the inspiration and artistic process behind the game and it really is a beautiful collection. There are few games that really demonstrate the blending of art and gameplay the way that Dishonored does and this artbook is a celebration of that balance. Glad to have this to flip through from time to time and dive back into the cites of Dunwall and Karnaca.0 of 0 people found the following review helpful.
