Marvel Book Group : The Avengers Storybook Collection before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Avengers Storybook Collection:

3 of 3 people found the following review helpful. American mythology By D. Hardly amazing literature but my pre-reading and early-reading kids love the stories. We often read them a story at bedtime. These are our modern-day mythology and it's actually pretty important that the kids know this stuff. 0 of 0 people found the following review helpful. my son loves it By Martabrianna My son loves this book. It is very good quality but it loses a star on the writing/editing. I like the superman version better. 0 of 0 people found the following review helpful. Got these books for twin boys age 7 who love The Avengers By Christie Matthews Got these books for twin boys age 7 who love The Avengers. One twin was having reading (on his level) difficulties, but these books have helped tremendously with his fluency and decoding skills. His teachers have noticed the improvement and recommend more reading like this until he reaches optimal fluency. I couldn't be more pleased. Give the boy books he likes and he reads circles around his peers. Works for us!

Thor, Iron Man, Captain America, Hulk, Black Widow, Hawkeye, and Falcon are Earth's Mightiest Marvels—the Avengers! Join them as they work together to battle against sinister Super Villains such as Ultron, Thanos, the Masters of Evil, and more, to keep the Earth safe. Featuring 20 explosive stories of good vs. evil. Avengers assemble!
