Ron Rege Jr. : The Awake Field before purchasing it in order to gage whether or not it would be worth my time, and all praised The Awake Field:

1 of 1 people found the following review helpful. psychedelic bookBy Tracy Eliasonthis book is amazing and it takes you to another level of consciousness through inspiring words and fantastic illustrations. I mean he's no da vinci but its fascinating to just stare into space in between the words it's not a novel but its a good book you can easily put down and not forget whats going on because there isn't a bunch of characters and plots to follow.

Ron Reg is one of a handful of cartoonists in the history of the medium not only to reinvent comics to suit his own idiosyncratic impulses and inspirations as an artist, but also to imbue it with his own peculiar, ever-changing emotional energy. To me, he is unquestionably one of the greats. Chris Ware
