An almost perfect book on BatmanBy Scott RogersI own every book about Batman - from the Great Comic Book Heroes to the 75th anniversary editions and this one is very cool. It's got lots of great faux articles and artwork. My only quibble is that minor villain's dossiers are somewhat glossed over and there is no entry for the Killer Moth - one of Batman's most steadfast foes since the 50's!1 of 1 people found the following review helpful. ... the characters world in locations and Batman's life highly recommended to fans of BatmanBy zackThis is one of The ulTimaTe BaTman books ouT There among the Batman encyclopedia Batman the world of The Dark Knight and others this book was put together buy Batman himself features notes blueprints schematics and BIOS tip hints at the characters world in locations and Batman's life highly recommended to fans of Batman3 of 3 people found the following review helpful.
