thirdtwinAnother great entry in the color version of Marvel's Conan saga- the whole thing is being reprinted in this series and it's getting closer to a full run with each edition. The reproduction values in this set seem pretty good In that you can see the line work and the coloring looks very similar to the original books so it's worth picking up if you like the character so you don't have to quest in second hand bins in shops.

Escaping prison in Koth by crawling deep beneath its flaming mountains, Conan and his comrades enter a far deadlier realm. Here is an ancient kingdom of fire, ash, and the undead, commanded by Varnae, First Lord of Vampires! The Chronicles of Conan collects classic Conan the Barbarian tales never-before collected and unavailable for over a quarter of a century.
