Ambir\_dThe documentation available is extensive and pertinent to mental health practice, but this Fourth Edition makes reference to the DSM-IV, and I'm pretty certain newest HIPPA revisions are not included as this edition printed in 2010. Wondering if a new edition will be coming out with those two concerns in mind.0 of 0 people found the following review helpful. Depends on what you need it for -- overall good.By Alban WallGood with a lot of different resources, but MOST of it does not apply to my needs, as a psychologist. GI am not sure that which does work for me is worth the price. I may change my mind after more use, but limited.0 of 0 people found the following review helpful. Chock full of great info.
