As a character, Emily stands out: self-possessed, in control of just about any situation, but inventive and intelligent - have you seen her lab? Her adventures all ride through the dark side, but the funny side of the dark. And, when you get

used to the black/white/red color scheme, you see how much it sets the mood of Emily and her environment. So, it didn't really work for me when they tried adding more shades of her trademark red, and even hues from the other side of the color wheel. I'd be just as surprised if Morticia Addams showed up in a flower-print sun dress. But, the only thing permanent is change, so I can live with it. She's still our dark barely-teenager, and I still like her.-- wiredweird0 of 0 people found the following review helpful.
