I imagine you know these are great stories drawn by legendary comic book artists. The same up/down sides of this format continue. If you like Dark Horse's colorist on this series, you'll keep liking the work here. I'm not a huge fan of the style of coloring (too much gradients and shading) but I buy them all. If I ran the world, this series would be on matte paper and printed with dots. I'd rather look at the old type of printing with the dots, weird as that might seem.2 of 2 people found the following review helpful. Dark Horse Comics brings you shocking tales of suspense! These stimulating stories have been digitally recolored--using Marie Severin's original palette as a guide--and feature art by all-star comic talents Jack Davis, Jack Kamen, Wally Wood, Reed Crandall, George Evans, Bernie Krigstein, Bill Elder, Joe Orlando, and Frank Frazetta!
