Stan Lee : The Fantastic Four Omnibus Volume 1 (New Printing) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Fantastic Four Omnibus Volume 1 (New Printing):

3 of 3 people found the following review helpful. This is awesome! By geoffil started collecting FF maybe 4 years ago. I started with the Byrne era because I heard great things about what he did to the characters and they were fairly priced. I just started to add the Lee/Kirby era to my collection, the earliest being #40 since it's tough to find a good price on anything prior. I'm quite ecstatic that Marvel decided to produce this omnibus since collecting issues 1-30 and

annual 1 would cost thousands in decent condition. However, the one thing I miss from this collection is the adverts. One of the ridiculous reasons I enjoy reading old comics is to see what products people tried to market back in the day (FYI, I grew up in the 90's). So if Marvel ever decides to make another omnibus+adverts, then I won't hesitate to purchase it. But in the meantime this is a great, affordable way to read the beginning stories of The World's Greatest Comic Magazine! 3 of 3 people found the following review helpful. The birth of the Marvel Universe begins here! By Ian It was a gamble: Four super-powered people who didn't have secret identities, didn't wear costumes (at first) and bickered with each other just as much as they fought super-villains. Heck, they didn't even consider themselves heroes! They were explorers, their leader a scientific genius whose thirst for knowledge always led them to new worlds and planes of existence. Created by a writer who had grown disillusioned with the comics industry and was about to quit, they were a last-ditch effort to create something new and exciting. In 1961 Stan Lee and Jack Kirby unknowingly created a comic revolution, and (thankfully) nothing would ever be the same again! Collecting Fantastic Four #1-30 and annual 1, this is the cornerstone of the Marvel Universe as we know it today! 0 of 0 people found the following review helpful. A MARVELous beginning. By Bill King If you love Marvel, this is where it all started. Stan didn't label it "The World's Greatest Comic Magazine" for nothing! One nice feature is they included all the fan letters, just like they did in the original comics. When I was a kid I used to go there first, to see if other readers made the same assessments as I did on previous issues.

They were visionaries. Explorers. Imaginators. They were Stan Lee and Jack Kirby. And like the Fantastic Four, they continually strove to overcome the impossible and achieve the extraordinary. Now, the first three years of their landmark run are collected in one oversized volume. This keepsake edition also includes all original letters pages and pinups, critical commentaries, a historical overview, and other DVD-style extras. COLLECTING: FA NTA STIC FOUR (1961) 1-30, FA NTA STIC FOUR ANNUAL (1963) 1
