"They say when you die, your life flashes before your eyes"By NiTE OwlLet me start off by admitting that when it comes to THE FLASH my fanatic objectivity is definitely suspect. I enjoy most anything related to the Scarlet Speedster and this book, which begins about nine months after his accident, was no exception. This listing advertises it as a collection of issues #124 of the digital series, something I

wasnt even aware existed. What I can add is the book is separated into seven colorful chapters (below) with a 14page cover gallery at the end.007Freak Show087Smoak Signals107King Shark187Black Star197Day In The Life207Ice And Fire227Melting PointAs one would expect Cisco, Caitlin Dr. Wells are on hand. Felicity Smoat, Ray Palmer Oliver Queen make appearances. Amanda Waller a few Suicide Squad add to the complications as do a circus of metahumans, the Hydro Hunter, several Sky Lords, a King Shark, many mutant spiders a cosmically altered astronaut.Several writers were involved with Andrew Kreisberg figuring most prominent. The same can be said for the artists assembled with the prime pencils of Phil Hester providing the majority of clean visuals. As I said, I enjoy almost anything that adds to the narrative such as the beginning of one hot cold criminal friendship. Hope I didnt spoil anything. Enjoy!1 of 1 people found the following review helpful. Great bookBy Kindle CustomerIt was great getting to know the characters more from the TV series. It was also good to see how they grow together as friends. That is what I love about the TV series and this book showed that as well.2 of 2 people found the following review helpful. Not exactly what I was expecting,By PuckNot exactly what I was expecting, but worth the price for the entertainment value. Pretty much a comic book.
