**Francis Manapul, Brian Buccellato : The Flash Vol. 2: Rogues Revolution (The New 52)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Flash Vol. 2: Rogues Revolution (The New 52):

1 of 1 people found the following review helpful. Good, but confusing in the middleBy CodyI really liked this, but there was a plot point that sort of was never addressed later on but was early on annoyed me. The characters even act

like that plot point never happened...I was really confused. Hopefully they'll tell me in vol 3 but if so that's a long wait to make me confused :(Other than that, I really liked this. I was geeking out with the updated Gorilla Grodd plot line at the very beginning and can't wait to see it come to fruition in vol 3! The rogues are shown in a manner I thought was really good, and we even get a backstory on their updated powers which was nice, but ultimately I felt like this book was achieving so much and cramming multiple plot points and foreshadowing and setup that it ultimately felt like a mess by the end with my brain going "wait a minute what happened to this in issue # but it wasn't addressed here, or there, and why is Barry acting like that instead of this??" It was a mixed, yet enjoyable bag for me.1 of 1 people found the following review helpful. A great sequel for a great comic series.By Kindle CustomerThe reason I gave this a higher rating than volume one is because it is a perfect sequel to volume one in regards to the story's continuity. Other than that it is a good read with plot twists and cliff hangers that keep you reading. After reading this volume I can say that I am officially hooked and will keep reading to the end. However, do not read this unless you have read volume one as the story will make less sense.3 of 3 people found the following review helpful. I want to see some Superpower Action. Got it.By Ghost MuttThe first volume of "The Flash" was ok. Didn't really get into it until later on when the Flash takes on Captain Cold. That's where it got really interesting. I enjoyed it and that's really what carried the book for me. That's the stuff I really wanted to read about. Then I found out about "The Flash. Vol. 2 Rouges Revolution." I wanted it. I got it, and read it. Was not disappointed. I saw a bunch of super power action and I also got to see Gorilla Grood. Which was neat. I was never a huge fan of the flash but this book really changed that. I look forward to reading more about the Flash

A New York Times Bestseller!Struck by a bolt of lightning and doused in chemicals, Central City Police scientist Barry Allen was transformed into the fastest man alive. Tapping into the energy field called The Speed Force, he applies a tenacious sense of justice to protect and serve the world as The Flash!The Flash's Rogue's Gallery are back-- but they are more powerful than ever and they're each looking to take down the Fastest Man Alive! Who is behind their sudden organization and why are they also after their former leader, Captain Cold? The Flash must think fast if he can outrun and survive their attack!Collects issues #9-12, #0, and Annual #1From the Hardcover edition.

Praise for Manapul's The Flash:"Showcases the Flash's likability and almost a hint of goofiness ... a lot of potential for greatness."USA Today "A visual treat.... Any reader can easily jump on board."The New York Times"The Flash will be one of the runaway hits of this rebootand could eventually become one of the great runs of American superhero comics."Time Out Chicago"Flash fans should breathe a sigh of relief that the character is 100% definitely in the right hands."MTV GeekFrom the Hardcover edition.About the AuthorFrancis Manapul is the artist and co-writer of THE FLASH, which is part of DC Comics-The New 52. His previous work for DC Comics includes books such as ADVENTURE COMICS, SUPERMAN/BATMAN, and THE LEGION OF SUPER-HEROES. His work has been published in various publications from the likes of Aspen Comics, Editions Delcourt, Top Cow Productions, and Devils Due just to name a few. Manapul was a TV Presenter on SyFy's Beast Legends, in which he and a team of scientists and adventurers traveled the globe in search of scientific data to create mythical beasts. Manapul was born in Manila, Philippines and currently calls Toronto, Canada his home.
