wanted to love this series of FS but I just can't. I like it but don't love it. I'm a FS fan from the early 80s and was excited to get my hands on this. Artwork seems on par with current offerings from DC. As a reader, I feel like I stepped in the middle of the story with no explanation of where all the other FSs came from. I'll probably buy the remaining trades just so I can finish the run and support the character. However, I can't seem to like this version. 2 of 2 people found the following review helpful. Damn I loved that
By Gary BI loved this particular reboot. When I was a long-time DC reader, I was worried about how they'd handle the two Firestorms... and this was just absolutely fantastic! The art is spectacular, the story is INCREDIBLY interesting (and led me to NEED to buy the next one). 0 of 0 people found the following review helpful. Good start
By Alvaro Gallardo The art is really good. I wanted to get into the comic of one of my favorite characters from my childhood and it was a good start for a newcomer.

As a part of the acclaimed DC Comics - The New 52 event of September 2011, two high school students worlds apart, Jason Rusch and Ronnie Raymond, are drawn into a conspiracy of super-science that bonds them forever in a way they can't explain or control. As the two boys become caught in the crosshairs of an international special forces team with orders to capture or kill them, Ronnie and Jason seek to discover the secrets behind what has happened to them. What they find will shed light on the secret history of Firestorm! This major new vision of nuclear terror is brought to you by writers Ethan Van Sciver and Gail Simone with astonishing art by Yildiray Cinar! Do not miss this disturbing look into the future of super powers in the DC Universe!
