Lonquist This is where the Goon saga starts I believe. It's complex in it's genre, and...not sure if it's this volume or another but he punches a gorilla. 0 of 0 people found the following review helpful. Read the Goon series or you'll die less fulfilled than those that do. By Kindle Customer Easily in my top 5 series of all time; comics or otherwise. The Goon series runs the gauntlet from absurdist comedy to black tragedy and somehow the characters work in both. Great writing and cool art. Can't say enough good things about the series. Buy it already, you won't be sorry. 2 of 2 people found the following review helpful. Yay! Goon. By Russell B. I still think 'Rough Stuff' is the best Goon collection, but from here on out it is Nuthin' but a sheer joyride. The Goon reminds me of Simon Bizley's take on Lobo, if Lobo had been in an E.C. horror comic. This whole series (except China Town, don't even mention China Town) is JUST SO AWESOME!!!!

It all starts here! Dark Horse is proud to re-present the beginning of Eric Powell's acclaimed Goon saga, with a lavish new cover and redesigned to match the swanky "Goon Year" collections. The Goon's unique mash-up of horror, mob intrigue, and the sickest sense of humor in comics is an instant classic, one of the true breakout hits of the '00s. With new volumes of The Goon hitting stores throughout the year, this is the best time ever to find out what you've been missing!
