By Arnold  
This was one of the first Star Wars Expanded Universe novels ever to come out, even before Empire Strikes Back. As such, there's a risk that they would be outdated and the characterization of Han Solo inconsistent. However, by and large the books work and Brian Daley captures Han well. We don't get too many of Han's famous one-liners, but we do get to see Han as he was before A New Hope - as a scoundrel interested in money, but also with a hidden idealistic streak. The stories involve Han going off on wild adventures outside of Imperial space and his hanging out with rogues and outlaws. Ironically, they're actually more like Indiana Jones stories than the typical Star Wars fare, but given the similarity between Han Solo and Indiana Jones they're a good fit. There are also some fun secondary characters, including Bollux the droid - whom oddly enough Han likes - and Gallandro who sadly don't reappear in the later EU. For more on Han Solo's backstory, I recommend A.C. Crispin's Han Solo Trilogy.

By Chris A. Chavez  
Good series and necessary to the total character development of what makes Han Solo who he is. Strengthens the character relationship between Chewie and Han. One of the things that makes Star Wars universe make sense is how and why of the characters. I would highly recommend this series for those wanting to understand better the meaning of the struggle.  
3 of 3 people found the following review helpful. Good Space Western  
By Mike C  
An early Star Wars book, written just after the first movie, these three adventures star Han Solo and Chewbacca facing off against corrupt authorities, pirates, and gunslingers in some of the more remote reaches of the galaxy. A trio of good adventures, with the second (Han Solo's Revenge) being my personal favorite. Be advised, these are more akin to space westerns than the Sci-Fi and Fantasy themes more commonly associated with the Star Wars universe. As standalone stories, I enjoyed them.

Han Solo soars again--in this awesome trilogy of his extraordinary exploits. Ride with him as he rides to the rescue, narrowly escapes certain death, and foils evil in its ruthless tracks!
