A time travel story starring a lesbian who will learn that when you turn your back on one group's suffering, there will eventually be no one left to protect you from your own. It's a sci-fi, graphic novel interpretation of Martin Niemller's "First They Came" poem. I found myself

falling in love with the main characters, crying with them, screaming their rally cry, I felt it all. So not only was I beyond captivated by the theme and characters, but the artwork was DIVINE. Multiple times I found myself stopped in awe. Issue after issue I discovered ideas for tattoos, wanting the beauty on the page imprinted on me. Everything was just marvelous. Bought the volume the moment I finished reading my copy from netgalley, and I'm sitting on pins and needles waiting for the second one to come to the states. 0 of 0 people found the following review helpful. Very good. By Gary S. Arkell This book is very entertaining and great action. The main character is a lesbian time traveler, but she is very nicely portrayed. toward the end of the book it gets a little too fast and confusing though. 0 of 0 people found the following review helpful. Works well as a sci-fi story, even better as an allegory. By Davis Z. This is a book I've always wanted to read, and with recent events, it seemed like the most appropriate time. I found its message of uniting in the face of oppression very inspiring, and very relevant. Some of the storytelling didn't always work for me, mostly in the early parts, but the fast pace always made for a good read. The art was especially good, had a nice Darwyn Cooke vibe to it that kept things classic yet contemporary at the same time.

A science-fiction series that asks the age-old question, "What would you risk for a chance at true love?" Meet Teddy, a young woman who lives in a faraway future where time traveling is a common practice and her job is to maintain the status quo by correcting time paradoxes. But when she meets Ano, "a time paradox" and the girl of her dreams, Teddy must decide between fixing the time stream or the love of her life, both of which have unique consequences. A dynamically graphic, science-fictiony, poetical, paradoxical wunderkind of a sexy, time-traveling, adventure-packed comic.

About the Author Pierrick Colin writes comic books. In France, he worked on *The Guardian of the Republic* and *Aeternum Vale*, both published in 2014. He then wrote *The Infinite Loop*, a science fiction love story between two women, published by IDW. He is now developing projects for various publishers. Elsa Charretier is a French illustrator and comic book artist. She started out at Image Comics where she did an issue of *COWL*, before moving on to her own mini-series, *The Infinite Loop*, published by IDW. She has since worked on *Starfire*, DC's *Bombshells* and *Harley Quinn*, and will join Marvel in 2017 on the new *Unstoppable Wasp* ongoing series. She is also drawing *Windhaven*, a graphic novel written by George RR Martin, out in 2018.
